Springer International

Journal of Mathematical Biology

Founded and edited in 1974 by H. J. Bremerman, F. A. Dodge Jr., and K. P. Hadeler.
As of Vol. 9 (1980) edited by K. P. Hadeler and S. A. Levin.

Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review of thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0303-6812, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Are you a regular reader?

Journal of Classification publishes original and valuable papers in the fields of classification, numerical taxonomy, multidimensional scaling and other ordination techniques, clustering, tree structures and other network models (with somewhat less emphasis on principal components analysis, factor analysis, and discriminant analysis), as well as associated models and algorithms for fitting them. Published twice a year, **Journal of Classification** typically has four sections in each issue: articles, short notes and comments, software abstracts, and book reviews.

Test the energy of a QUANTUM!

The Student Magazine of Math and Science

ISSN 1048-8820 Title No. 583

Russian Editor-in-Chief:

Y. Ossipyan, Russian Academy of Sciences

US Editor-in-Chief for Physics:

S. L. Glashow, Harvard University

US Editor-in-Chief for Mathematics:

W. P. Thurston, University of California, Berkeley

Challenging as well as entertaining, **Quantum** publishes feature articles that inspire thinking in math and physics. From the "geometry of population genetics" to the "superfluidity of helium II", **Quantum** demonstrates and teaches the thinking paths to a problem, its solutions, and its alternatives. Regular sections such as At The Black Board and Brainteasers, intended for those who like Olympiads and other problem-solving competitions, make for ideal classroom material.

Springer \LaTeX and plain- \TeX macros

We can use your \TeX files directly for phototypesetting if you have used our macros. Makropackages are available for the following journals:

lJour1 \LaTeX styles for Acta Informatica, Applicable Algebra in Engineering, Communication and Computing, Archive for Mathematical Logic, Astronomy & Astrophysics Reviews, Calculus of Variations, Communications in Mathematical Physics, Continuum Mechanics and Thermodynamics, Economic Theory, Inventiones mathematicae, Journal of Evolutionary Economics, Journal of Mathematical Biology, Manuscripta mathematica, Mathematische Annalen, Mathematische Semesterberichte, Mathematische Zeitschrift, Numerische Mathematik, Probability Theory and Related Fields, Statistical papers, Theoretica Chimica Acta

PJour1g global plain \TeX packages for all journals mentioned above; ***PJour 1*** may also still be used. All packages are available via mailserver, FTP server or on DOS diskettes.

Mailserver

Send an e-mail message to `svserv@vax.ntp.springer.de` which must contain one (several) of the following commands:

lJour1 `get /tex/latex/ljour1.zip`

PJour1g `get /tex/plain/pjour1g.zip`

In order to be transmitted ungarbled via the net, the files are pkzipped and unencoded. The line `get /tex/help-tex.txt` in your e-mail to `svserv` will send you a file explaining how to unpack the files you receive.

Please do not send regular e-mail to this address.

FTP server

The internet address is 192.129.24.12 (`trick.ntp.springer.de`) The username is FTP or ANONYMOUS and the files are in the directory `/pub/tex`

Diskettes

To get the macro files and the AMS fonts (when needed) on 3.5" DOS diskettes please write to:

Springer-Verlag, Journal Production,
Tiergartenstr. 17
D-69121 Heidelberg, Germany
e-mail: `springer@vax.ntp.springer.de`
FAX number: x 49 6221 487625

Please indicate clearly which macro package you need and the journal for which your paper is intended.

**Use our \LaTeX and plain- \TeX macros
to prepare your article
for this and for other Springer journals.**
